OHIO VALLEY FOREST NURSERY

R. L. McCOY, PROP.
LAKE, SPENCER CO., INDIANA.

Genuine guaranteed Catalpa Speciosa or hardy Catalpa seed from the largest forest trees in the Ohio Valley bottoms. We guarantee these seeds to be true Catalpa Speciosa. They have been pronounced Catalpa Speciosa by the Forestry Service. You may submit them to any expert in the United States and if not true, we will gladly refund your money.

We are now making a special price of 90c per pound. Ten thousand seeds of Catalpa Speciosa weigh one pound. With an order of ten pounds, we give printed instructions how to grow Catalpa Speciosa Seedlings. By our method we guarantee 90 per cent of the seed to germinate and grow. As to the quality of our seed, we refer you to Hon. Jas. A. Hemenway, U. S. Senator, Washington, D. C., who has been personally in touch with our nursery and seed work for years and has purchased many thousands of our seedlings.

Please send us your price list, as we have a large want list

We grow Catalpa Speciosa Seedlings by the millions. We guarantee our seedlings to be the true Catalpa Speciosa and will gladly refund money and pay all damage upon sufficient proof that they are not. As to the genuineness of the seedlings, we refer you to Mr. T. P. Littlepage, Clerk of the Committee on Public Expenditures of the U. S. Senate, Washington, D. C. As to our reliability, we refer you to the Lake State Bank, Lake, Ind.

Why plant Catalpa Speciosa? An Epitome of Forty-one Reasons.

|--|--|
| <ol style="list-style-type: none"> 1. It will grow everywhere within the boundaries of the U. S., except in arid regions. 2. By 1925 American forests will be exterminated. 3. The only valuable tree which will mature in time. 4. Is antiseptic; requiring no chemical treatment. 5. It grows in almost any soil 6. Is easily propagated and managed 7. Demands no professional manipulation 8. Most durable wood known 9. Valuable for cross-ties; have endured for half a century 10. Nothing better for telegraph poles 11. Miles of living trees used for telegraph lines 12. Makes magnificent veneers 13. Superior to oak furniture 14. Lighter than pine 15. Stronger than oak 16. Tougher than hickory 17. Freedom from warping 18. Neither shrinks nor swells 19. Makes best wood pulp and book paper. 20. Immense yield per acre | <ol style="list-style-type: none"> 21. Excels for building material 22. Equals walnut for carving 23. Makes good fence posts 24. For mine timbers not surpassed 25. Ideal wood for shingles 26. Every quality for interior house finishing 27. Good plow beams and handles 28. Used for centuries for boat building by the Indians 29. Suitable for all car construction 30. Qualities of ash for agricultural implements 31. Blocks are used for wood engraving 32. Strong and durable piling timber 33. Less insect enemies than other trees 34. Fewer diseases than other trees 35. Once planted becomes a perpetual forest 36. Quick growth for wind break 37. A desirable shade tree 38. Beautiful flowers for ornament 39. Roots never clog sewers 40. Will produce cross-ties at 20 cents apiece 41. Practically all uses for which wood is adapted. |
